

## Coating Design for different surfaces with NewPro TC Texx Outside

<u>Alkyd Resins Coating</u>	<b>Base Preparation</b>	Old paint grinding, cleaning and proofing for characteristic resistance
	<b>Primer Coating</b>	Faults should be mended similar to the origin
	<b>Intermediate Coating</b>	Apply NewPro TC -Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC-Texx undiluted
<u>Acrylic Paint</u>	<b>Base Preparation</b>	Clean old paint and proof for characteristic resistance
	<b>Primer Coating</b>	Faults should be mended similar to the origin
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC- Texx undiluted
<u>Epoxy Resins Paint</u>	<b>Base Preparation</b>	Grinding and cleaning off old paint and proofing for characteristic resistance
	<b>Primer Coating</b>	Faults should be mended similar to the origin
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC- Texx undiluted
<u>Lime Paint Coating</u>	<b>Base Preparation</b>	Clean old paint and proofing for characteristic resistance
	<b>Primer Coating</b>	Apply primer / sealer
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC-Texx undiluted
<u>Cement Coating</u>	<b>Base Preparation</b>	Clean old paint and proofing for characteristic resistance
	<b>Primer Coating</b>	Apply primer / sealer
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC-Texx undiluted
<u>Silicone Paints</u>	<b>Base Preparation</b>	Clean old paint and proofing for characteristic resistance
	<b>Primer Coating</b>	Apply primer / sealer
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC-Texx undiluted
<u>Acrylic Resin Facade Paint</u>	<b>Base Preparation</b>	Clean old paint and proofing for characteristic resistance
	<b>Primer Coating</b>	Apply primer/sealer
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC-Texx undiluted
<u>Acrylic Resin Thick-View Colour</u>	<b>Base Preparation</b>	Clean old paint and proofing for characteristic resistance
	<b>Primer Coating</b>	Fill cracks and faults with primer
	<b>Intermediate Coating</b>	Apply NewPro TC-Texx undiluted
	<b>Paint Finish</b>	Apply NewPro TC-Texx undiluted
