

The Product Compass

gives you a quick overview of individual characteristics of the formulation

Produkt	Easy to Clean	Corrosion Protection	Hydrophobia	Oleophobia	Scratch Resistance	Anti-Finger-Print
NA 401 NP solvent based anti-adhesion coating for industrial application	+++	-	+++	+++	+++	-
NA 412 NP highly resistant corrosion protection coating for light metals	+++	+++	+++	+++	++	+
NA 405 NP high temperature resistant corrosion protection coating	-	++	+	-	++	-
NA 109 NP AntifingerPrint protection	++	++	+	-	+++	+++
NA 129 NP durable coating with anti-adhesion effect	+++	++	+++	++	+++	+++
NA 111 NP effective corrosion protection for zinc, copper and metal	+++	+++	+++	+	++	+++
NA 405 NP room temperature hardening, high temperature resistant corrosion protection for light metals	-	+++	+	-	+++	-
