- A wide variety of further types of surfaces.

For the cleaning of marble and other acid-sensitive surfaces such as aluminium and aluzinc coatings, NewPro offers an alternative cleaner.

#### Product Characteristics/Features

NewPro-Combo Cleaner exhibits the following product characteristics:

- Easy removal of stubborn stains, dirt and grime
- Intensive removal of grease and fat
- Odorless
- High productivity – concentrate cleaner
- Easy and thorough removal of organic substances
- Environmentally safe
- Fights bacteria and as a deodorant
- Very effective and offers the fast and easy removal of dirt and grime deposits.

## **Instruction for Application and Use**

Surface Preparation/pre-cleaning:

All surfaces should be free of grease, oil, dirt and dust, dry and sustainable.

1. As usual, thoroughly remove all large dirt and grime and loose particles.  
In the event of extreme dirt or grime, repeat this step until the particles and grime is removed.

Application:

1. Dilute NewPro-Combo Cleaner –Concentrate at a ratio of 1:10 to 1:40 (1 part cleaner concentrate and 10 to 40 parts fresh warm water).
2. Rub surface until suds form with non-abrasive combo-sponge (use white side) or a non-abrasive 3M pad.
3. Allow NewPro-Combo Cleaner approximately 3 minutes time to take effect.
4. Subsequent to step 3, rub NewPro-Combo Cleaner out with material-moistened sponge and thoroughly rinse with clean water.
5. Remove remaining moisture and polish the surface dry.

Warning:

Do not allow NewPro-Combo Cleaner to dry onto the surfaces, which are to be cleaned.

Notice:

NewPro-Combo Cleaner covers a wide range of applications. It is, therefore, recommended a test be carried out to the surface to determine the durability and suitability of the product for its intended purpose or surface.

NewPro-Combo Cleaner is not designed for use on marble and other acid-sensitive surfaces, such as aluminium and aluzinc coatings.

Machine Application:

NewPro-Combo Cleaner can be applied using a standard airless spraying device.

Follow the manufacturer's instructions and operation manual for the spraying device as well as the mixing instructions.

Mixing Instructions:

NewPro-Combo Cleaner can be diluted at a ratio of 1:10 to 1:40 (1 part NewPro-Combo Cleaner - Concentrate and 10 to 40 parts fresh warm water)

Use/Product Consumption:

- An exact amount of required material can be determined with a test application.

## **Required Conditions for Use/Application**

Application and drying can be carried out with a surface and area temperature between a min. +10 °C and max. + 30 °C.

Required Time to Take Effect:

- Dependent upon the degree of dirt and grime.

Warning:

Do not allow NewPro-Combo Cleaner dry onto the surfaces which are to be cleaned.

Cleaning of Tools:

- Immediately after use, clean tools with lots of clean water.

## **Delivery Form**

Units Per Package:

- 250 ml plastic bottles.
