

Product Data Sheet

Effect Paint, Water Soluble

NewPro ACRYL-Two-Component AQUACOAT Metallic

Product and Material Description:

Metallic protective coating for contract business.

According to the application case in hand, we recommend a primer coat with our NewPro ACRYL-2K AQUAPRIME, Art.- Series 7544-xxxx-0043.

Longer delivery time as this is a non-stock item.

Various colour shades are available, see also www.g-pro.com "Products).

In order to achieve a uniform surface we recommend that metallic paint is only applied by spray gun.

!! Not to be transported, stored, processed or dried under +10°C!!

Mixing Ratio 6 : 1 with 0041-43501

Density: 1,470

DFT (Dry Layer Thickness) (μm): 0

Thinners: 0089-11520

Article-Number: 3547-x06xx-0043

NewPro ACRYL-Two-Component- AQUASTRUKTUR

Product and Material Description:

Water soluble, two-component metallic paint, recommended for outdoor use due to its high UV-resistance properties.

Also useable indoors as a single-layer covering.

We recommend our Art.-Series 7509-xxxx-2065 as a primer or other suitable solvent-based primer. Higher stability than products with solvent contents. High hardness and scratch resistance.

In order to achieve a uniform surface we recommend that metallic paint is only applied by spray gun.

!! Not to be transported, stored, processed or dried under +10°C!!

Colour Shade Classification: see Annex Summary Price Groups

Mixing Ratio 6 : 1 with 0041-43501

Density: 1,300

VOC (volatile organic compounds) **(g/l):** 60

DFT (Dry Layer Thickness) **(µm):** 80

Coverage each m² (theor.): 4.6 kg / 6.0 l
