

Product Data Sheet

NewPro-Surface Cleaner

Description

NewPro-Surface Cleaner is specially designed surface cleaner for the beautifying and environmentally safe cleaning of enamel, glass, glazed ceramics, synthetic materials, and metals as well as a wide variety of further surfaces without damaging the surface and can also be used to remove of hard-to-remove grease, fat, fingerprints and oils.

Range of Application and Use

NewPro-Surface Cleaner was specially designed and developed as a beautifying and environmentally safe cleaner for a wide range and variety of different surfaces such as:

- Enamel
- Glazed ceramic
- Synthetic materials/plastics
- Metal
- Nano-coated surfaces
- A wide variety of further types of surfaces.

For the cleaning of marble and other acid-sensitive surfaces NewPro offers an alternative remover and cleaner.

Product Characteristics/Features

NewPro-Surface Cleaner exhibits the following product characteristics:

- Easy removal of stubborn stains, dirt and grime
- Odorless
- High productivity – concentrate cleaner
- Easy removal of grease, fat, fingerprints, oils, etc.
- Environmentally safe
- Effective and fast removal of dirt and grime deposits.

Instruction for Application and Use

Surface Preparation/pre-cleaning:

All surfaces should be free of grease, oil, dirt and dust, dry and sustainable.

1. As usual, thoroughly remove all large dirt and grime and loose particles.
In the event of extreme dirt or grime, repeat this step until the particles and grime is removed.

Application:

NewPro-Surface Cleaner develops its full cleaner power when mixed with water. Therefore, NewPro-Surface Cleaner should not be applied undiluted.

1. Dilute NewPro-Surface Cleaner Concentrate at a ratio of 1:500 (10 ml cleaner concentrate and 5 liters fresh, warm, water) and apply accordingly to the degree of dirt, soiling and grime.
2. Thoroughly clean the surface using a non-abrasive washing towel, cotton towel, window wiper with non-woven material (fleece) or a sponge.
3. Thoroughly rinse off remaining dirt and grime with clean water.
4. Remove the remaining moisture and polish the surface dry.

Warning:

Do not allow NewPro-Surface Cleaner to dry onto the surfaces which are to be cleaned.

Notice:

NewPro-Surface Cleaner covers a wide range of applications. It is, therefore, recommended a test be carried out to the surface to determine the durability and suitability of the product for its intended purpose or surface. NewPro-Combo Cleaner is not designed for use on marble and other acid-sensitive surfaces.

Machine Application:

NewPro-Surface Cleaner can be applied using a standard airless spraying device.

Follow the manufacturer's instructions and operation manual for the spraying device as well as the mixing instructions.

Mixing Instructions:

NewPro-Surface Cleaner can be diluted at a ratio of 1:500 (10 ml NewPro-Surface Cleaner Concentrate and 5 liters of fresh warm water).

Use of Product:

- An exact amount of required material can be determined with a test application.

Required Conditions for Use/Application

Application and drying can be carried out with a surface and area temperature between a min. +5 °C and max. + 30 °C.

Required Time to Take Effect:

- Dependent upon the degree of dirt and grime.

Warning:

Do not allow NewPro-Combo Cleaner dry onto the surfaces which are to be cleaned.

Cleaning of Tools:

- Immediately after use, clean tools with lots of clean water.

Delivery Form

Units Per Package:

- 250 ml plastic bottles.

Further packaging types and sizes are available upon request.

Color:

- Colorless.
