

Product Data Sheet

NewPro WR 12 Basic Cleaner as Oil and Grease Remover for inorganic Soiling

Product description

NewPro WR 12 Basic Cleaner as oil and grease remover against inorganic soiling is a gentle cleaner for wood, artificial stone, natural stone and PVC.

NewPro WR 12 Basic Cleaner as oil and grease remover dissolves even organic soiling.

Application Instruction

Apply **NewPro WR 12 Basic Cleaner** as oil and grease remover depending on degree of soiling diluted with cold water at a ratio of 1:1 up to 1:20. Use brush to spread on surface to be cleaned and let react shortly. Subsequently rinse off well with plenty of clear water.

NewPro WR 12 Basic Cleaner as oil and grease remover can be applied especially at polished marble and limestone due to its non-aggressive components.

Chemical products should always be tested at an inconspicuous area before a wider application.

Safety Advice according to EC-recommendation:

Watery solution < 10% non-ionic tensides, < 5% kationic tensides, corrosion inhibitors, organic salts, < 15% monoethanolamin.

Product is bio-degradable UBA: 31100007
