

Product Data Sheet

NewPro Marble Stone Soap WP 1

Product Information

NewPro Granite Stone Soap is a maintenance concentrate which was developed to care and impregnate granite floors. With its special combination of natural raw materials, NewPro Granite Stone Soap prevents dirt and water from penetrating into the granite without building up a new layer.

NewPro Granite Stone Soap does not only clean the floor, it also turns the floor antistatic and slip resistant. This makes daily cleaning so much easier.

NewPro Granite Stone Soap is added to the water for daily cleaning and applied with a mop. If cleaning large areas it is advisable to add NewPro Granite Stone Soap into the tank of the cleaning machine.

NewPro Granite Stone Soap has a pH-value of 8.4 and is therefore classified as a neutral product. NewPro Granite Stone Soap is biodegradable.

NewPro Granite Stone Soap is highly concentrated and its usage is economical. The mixing ratio is about 20-30 ml per 10 liter.

NewPro Stone Soap Ingredients: Natural fatty acids, solvents, additives and fragrances

Registered with Umweltbundesamt: UBA-Nr. 3110 0003 NewPro Marble Stone Soap is a maintenance product developed for the care and impregnation of calciferous natural stone.

With its special composition of natural raw materials, NewPro Marble Stone Soap prevents dirt and water from penetrating into the natural stone without building up a new layer.

NewPro Marble Stone Soap reacts with the calcium carbonate inherent in the natural stone thereby protecting the natural stone. Small surface damages will be repaired naturally. In addition, the floor becomes slip resistant and antistatic. The daily cleaning becomes much easier.
