

Product Data Sheet

NewPro Grease Remover - Concentrate BT

Product Properties

NewPro Grease Remover is a liquid, powerful, highly concentrated grease remover for all water-compatible surfaces including light metals. It is bio-degradable, not inflammable, odourless, and does not produce toxic vapours. It is free of dangerous solvents. NewPro Grease Remover contains corrosion inhibitors which protect the bright metal like stainless steel sinks. NewPro Grease Remover removes all kinds of oil respectively greasy residues. NewPro Grease Remover prevents lime scale deposits in heating systems as well as pipe obstruction, e.g. when used in high pressure cleaners, because it bonds with calcium in soluble form even in very hard water.

Application Area

NewPro Grease Remover is used in production areas, for metal cleaning and degreasing, as well as in households, and in snack bars to remove grease from all water-compatible surfaces.

Application

Depending on the age and degree of soiling dilute in a ratio of 1:5 to 1:100 in the cleaning bath, ultra sound-, steam blaster-, hot water-, or high pressure cleaner as well as for manual cleaning. The cleaning becomes even more effective when heated up to max. 65°C.
