

Product Data Sheet

NewPro Cushion Cleaner Fit with Graffiti Removal

Description

NewPro Cushion Cleaner Fit is a special product to solve problems with insoluble soiling of all kinds. In particular when used in water, where disinfectors react with detergents to form water-insoluble compounds, but this is also valid in other areas where dirt sticks. NewPro Cushion Cleaner also removes graffiti from upholstery.

Advantages

All active ingredients of the product are selected to dissolve water-insoluble compounds, moisten incrustation and unfasten tough soiling. The product is also effective if the dirt is mingled with lime, if the soiling consists of lime only, this must be removed with an acidic product. (see NewPro Active Cleaner or Intensive Cleaner or NewPro Cleaner Plus).

Application Area

NewPro Cushion Cleaner Fit as alkaline cleaner can be used in swimming pool areas.

General Information

When applied to aluminum, zinc or tin caution is advised. Although the inhibitor protects these materials, it is better to dilute product. Please see also our Eco Remover A and Stopper B.

Application

Dilution depends on degree of soiling, up to 1:100. Must be tested upon test area.

Application Area

- for crafts and industry for all oil-stained parts
- for household / hobby applicable to tiles, sinks, garden furniture and windows

CAUTION: NewPro Cushion Fit concentrate is caustic. If applied with a spray nozzle let react to enhance the effectivity.

Application steps

After spraying NewPro Cushion Cleaner Fit let react approx. 5 minutes, then neutralize with plenty of water. The cleaner should ideally be rubbed in using by a polishing machine.

Consumption

Depending on degree of soiling

Storage

Storable up to 12 months when compliant with storage conditions (see data safety sheet)

Important Handling Instructions

Do not handle NewPro Cushin Cleaner Fit undiluted without safety equipment like goggles and acid-proof gloves. For details regarding dangerous substances see product data safety sheet.

Work Hygiene

When using chemicals, the safety precaution measure according to the EU safety data sheets are to be observed. The appropriate protective clothing, protective gloves as well as protective goggles and facial protection are to be worn at all times when handling the product.

For further instructions, please refer to the product safety data sheets for this product.
